DETAILED ACTION

Claim Objections

Claims 2 and 4-6 are objected to because of the following informalities: In claim 6, line 1, the terminology, "first a transaction" is awkward/confusing; and it appears the language should be changed to –a first transaction--. Appropriate correction is required.

Claim Rejections - 35 USC § 103

Claims 2 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wagner '908.

Wagner discloses a first transaction over a private line (see for example Col. 6, line 63 through Col. 7, line 35); a second transaction over the Internet (see for example Col. 6, lines 43-63); a controller (i.e., "command") for controlling to perform the first and second transactions (See for example Col. 6, lines 17-36).

Wagner lacks the specifics of an operating unit enabling the user to select either the first transaction or the second transaction.

It would have been an obvious design choice to one of ordinary skill in the art at the time of the invention to modify Wagner to enable the user to select either the first or second transaction, in order to allow the user to select which method of PAYMENT is most convenient and secure for him/her in order to "improve the security of the data transmission" (See Wagner Col. 7, line 17).

Re claim 2: It is an obvious design choice as to which line is used for relatively high and low security.

Allowable Subject Matter

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed March 3, 2004 have been fully considered but they are most in view of the new grounds of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to F. Ryan Zeender whose telephone number is (703) 308-8351. The examiner can normally be reached on Monday-Friday, 8am-5pm.
